3. Introduction

Blockchain and cryptocurrency has come to change lives across the globe by revolutionizing processes, industries and social interactions. With the rise of cryptocurrencies, came increasing application and awareness of the vast good society is capable of achieving using the blockchain technology.

Even as the crypto movement progresses, the era of meme tokens also arose, not as a threat to the social established and ever expanding order created by crypto, but to expand it even more in ways that encourages humanity to continue to question exactly what is actually real and normal.

4. What is Wakanda Inu

We introduce Wakanda Inu, the Africa dog, a decentralized meme token to drive charity-oriented activities across the expanse of mankind.

Filled with the true African spirit, Wakanda Inu radiates with high-energy, incredible stamina, hyper vision and superb hearing, the African Dog captures the glory, richness and unrivaled essence of what it means to be a true and successful predator.

Wakanda Inu is a community meme project forged from the deep and warm consciousness of humanity. Wakanda Inu (WKD), the digital meme token that represents the daily struggles and aspirations of the best aspects of what it means to be alive - truly alive as a community.

Basking in the glory of the Ubuntu spirit, we present to you Wakanda Inu, the African dog, forged and baptized by the spirit of One Community.

Be a pioneer on this mission. Wakanda Inu will outperform every meme coin out there. We are well on our way to inevitable widespread adoption.

5. The Panther's Mission

The Wakanda Inu's mission involves exploiting its humanity's native skills in *driving social good for all mankind*.

6. Values / Use Cases

Values

Transparency

To show first commitment, there was no private sale or special allocation to the team members during the public sale. Team members went through the whitelisting process just like every other member of the community. 80% generated from the public sale was allocated for liquidity and locked, while the remaining 20% is for operations to ensure a successful moon mission.

Charity

Wakanda Inu is a decentralized meme token to drive charity-oriented activities worldwide. 4% of the allocable tokens will be used for charity.

Unity

\$WKD is a cryptocurrency token that was built to foster togetherness, facilitate social upliftment, and further the rise of the meme-powered metaverse.

Community.

Wakanda Inu is a decentralized community driven project. As such, the wish of the community will be carried out through a well organized community voting.

Use Cases

- Farming
- Project incubation through grants and partnerships
- NFTs
- Staking
- Gaming (Community dependent)

7. Tokenomics

The Wakanda Inu token is a Binance Smart Chain token of the BEP-20 Standard.

- Token Name: Wakanda Inu
- Ticker: WKD
 - Max Supply: 1 Quadrillion
 - Burnt: 815.5 Trillion
 - Available Tokens/Allocation of 185.5 Trillion Tokens
 - Marketing: 50 Trillion (26.9%)
 - Development: 25 Trillion (13.5%)

 - Token Sale/Liquidity: 100.5 Trillion (54.2%)

Note: Charity, Development & Marketing has 5% quarterly unlock for 5 years.

8. Token Burn

There will be a periodic burn of WKD tokens. The burn will be a result of token buy-back from revenue generated by the WKD Labs and other ventures of the Wakanda Inu Project.

Token burn will continue until there is sufficient reason to stop.

9. Security

- Security is highly important in a digital system. We have adopted the best of industry measures to ensure our codes are highly secure and reliable.
- We have adopted a multisig measure to prevent anyone from exploiting the community.
- The Wakanda Inu Project has secured the Certik state of the art Shield to give 24/7 monitoring and security coverage over the project codes.
- More security systems will be adopted and implemented.

10. Ecosystem & Products

10a: Wakanda Inu NFT Marketplace

With the growth in the adoption of NFTs and its applications over the past months, and the continuous acceleration into the NFT space, it is apparent the innovation will continue to become the foundation for a lot of products.

The Wakanda Inu NFT Marketplace is a next generation type of asset-backed non-fungible assets marketplace.

The Wakanda Inu NFT Marketplace will feature both the minting and trading of digital properties in the form of NFTs. Art lovers will be able to display their creative ingenuity and earn from it. The Marketplace will also feature digital properties or NFTs representing real world assets.

Art curators across the world through the Wakanda Inu Marketplace will be able to source for and secure rare art pieces and have them delivered to them if they so desire.

10b. WKD Labs

The Wakanda Inu Lab will be in charge of overseeing the incubating, management and funding of projects that are building on the WKD ecosystem or are getting funded by WKD. Through various approaches, the lab will be providing both technical and financial support for projects and organizations committed to promoting the Wakanda Inu token.

These approaches includes:

Project Incubation: Incubating projects aiming to grow the use cases of the Wakanda Inu token, providing them with the needed resources to get started.

Financial Grants: to project building around the Wakanda Inu community and driving utility of the WKD token.

Partnership: The WKD Labs will continue to work in advancing the project by partnering with organizations within and outside the industry

The Wakanda Inu Labs will be a revenue generating arm of the Wakanda Inu project and a percentage of this revenue generated will be distributed according to a predetermined basis which will be reviewed quarterly. It will receive an allocation from the distributed tokenomics to kick-start its operation.

Revenue Generated by the Lab will be distributed into:

Token Buy-back & Burn Account: 50%

Lab Operations Account: 50%

The Wakanda Inu Lab will work with other projects in the blockchain and cryptocurrency industry, partnering with them to promote the Wakanda Inu project.

10c. WKD Labs' Grant

The WKD Lab's Grant is a program to drive the adoption of and use-cases of Wakanda Inu Token. Wakanda Inu Nation's backbone is its community. Wakanda Inu calls on builders and project developers of the Wakanda Inu Community to work to expand the ecosystem for the \$WKD token. As part of the Lab's commitment to Wakanda Inu Ecosystem building, the Wakanda Inu project will provide strategies and execution plans with a proposed Special Grant Fund for 2022. The funds will be made available through the Wakanda Inu Token DAO quarterly budget system.

We adopt an equity-free contribution in the following categories. Eligible applicants are required to apply for their grant on the Wakanda Inu Lab's registration page once it becomes available on the Wakanda Inu website.

Social Impact (Community Reputation):

Social impact grants support nonprofits and groups that are promoting the use of Wakanda Inu Token to benefit emerging markets and contribute to the betterment of humanity.

Bug Bounty:

Bug bounties support developers and security engineers who examine Wakanda Inu Project home-grown codes and harden them against potential attack vectors now and in the future. Depending on the severity of the said bug, a single bounty can be as little as \$100 or as high as \$20,000.

Application Launch (Integration):

The Integration grants encourage projects and teams from all over the world to create and integrate \$WKD into their applications. All fully-featured projects will be eligible for a grant after the first 30 days of active usage complemented by social engagements promoting the project and its integration of \$WKD.

Subsequent grants will be applicable if the project has active users at the end of 60 days with a minimum of 500 users or providing a verifiable trading volume in \$WKD of an amount which will be reviewed from time to time.

NOTE:

- This grant is open to both platforms that use \$WKD exclusively and those that add \$WKD to their list of already supported tokens.
- Every project **MUST** have \$WKD fully integrated into its system to qualify for an Application Launch Grant.

10d. WKD Consulting

This is the consulting arm of the WKD Labs.. It will be led by the brightest of minds in the field of investing, project management, marketing, media, tech etc. This arm will give advisory services to projects building in the ecosystem and projects outside the ecosystem that require advisory counsel.

10e. WKD DAO

The WKD DAO will work with the community to initiate and manage community decisions. The Voting on projects to gain backing by WKD will be done by the community through the DAO.

This ensures that while there are revenue generating activities running solely on their own, the community is also actively involved in the development of the project and this creates a sort of balance between centralization of authority and control and decentralization of the same.

10f. WKD Predictions Market

The WKD predictions market is a decentralized platform enabling both crypto natives and non crypto natives to predict real world events and win money.

The market will enable participants to stake WKD tokens into a pot and predict events. This market will drive the next level use case for the WKD token.
